- [ ] Unemployed people
- [ ] Wildlife
- [ ] Other

(*) Optional field, not mandatory (**) Institutions located in- and outside the Netherlands must fill in the RSIN number

1 General *(continued)*

Objective
Statutory objective of the organisation. What does the organisation seek to achieve?

The Foundation aims to: :
- Improve interactions between science and policymakers in the global South to make progress toward the Sustainable Development Goals ("SDGs") for food and climate;
- Provide intellectual leadership through an interdisciplinary and solution-oriented approach that provides solutions to challenges that discourage climate action;
- Engage policymakers from the public and private sectors to realise the implementation of climate recommendations;
- Strengthen the capacities of implementation organisations so that the implementation of recommendations is realised;
- Enter into and set up multi-stakeholder partnerships to scale up the implementations of recommendations;
- Catalyse a just transition to resilient and low-emission food systems in low- and middle-income countries;
- Perform all further acts that are related to the above in the broadest sense or that may be conducive thereto.

Outline of the policy plan

Please answer the questions below or provide an URL to the policy plan after the last question about the policy plan.
The online policy plan should at least provide answers to the questions about the policy plan asked here.

What are the institution's activities? When are which acitvities to be carried out? And how do the activities contribute to achieving the institution's objective?

https://clim-eat.org/wp-content/uploads/2025/06/Clim-Eat-Strategy-March-2025-2.pdf
Clim-Eat conducts activities to transform food systems. In general, Clim-Eat's activities can be divided over two pillars: 1) horizon scanning and advancement of innovations in food systems at a global scale, and 2) in-country activities in Africa and Asia. As part of the first pillar, Clim-Eat has identified ground breaking innovations in the food systems space and developed and expanded the digital platform Food Systems Tech (https://foodsystems.tech/) in which bold innovations are highlighted. Under the second pillar, Clim-Eat is engaging with sub-national government structures in Kenya to address the implementation gap of climate actions through evidence generation and engagement with key stakeholders, which resulted in the roll-ouy of a pilot project on incentivizing the uptake of agricultural insurance. Thereby, in collaboration with the World Bank and the national government of Malawi, Clim-Eat is supporting the repurposing agenda of fertilizer subsisidies by introducing payments for ecosystem services. Further, Clim-Eat engages with country governments of 3 Asian countries to stimulate the uptake of nutritional targets in national policies.

How does the organisation generate income or revenue?

The Foundation generates income through project grants received from governments, companies and other non-governmental organisations.

1 General *(continued)*

How and for what purposes are the revenues spent?
If your organisation holds capital, please fill in here where and how this capital is held (e.g. savings account, investments, etc.)

Revenues deriving from grants are fully spent on project deliverables. Clim-Eat works through various grant agreements from different funding sources. In these agreements, particular deliverables and objectives are agreed upon which Clim-Eat need to deliver over the lifespan of the project. The dedicated project resources (which are broken down in the agreement over specific budget lines) are to be spent on dedicated project activities. In case certain project funds are left over, these will be put in a continuity reserve (which at maximum can be 10% of the total organizational budget) to ensure continuity of the organization and mitigate potential future financial risks.

Open

Remuneration policy
Remuneration policy for the statutory board, for the members of the policy-making body and for staff (e.g. collective labour agreement or salary scheme).

For its staff, including the Executive Director who is the sole member of the Executive Board, Stichting Clim-Eat follows the CLA Social Work (CAO Sociaal Werk). Supervisory Council members are not remunerated but any expenses incurred properly claimed are reimbursed.

Activity Report
List the activities that have been carried out. Alternatively, under the next question, enter the URL to the activity report, or to the financial statements if they clearly describe the activities of the financial year in question.

Explanation
Provide an explanation of the balance sheet or fill in the URL to the annual accounts if an explanation is included.

The financial statements are drawn up in accordance with the Guideline C1 of the Dutch Accounting Standards Board. Goal for this "Richtlijn" is to give insight into the costs of the organization and the spending of money in relation to the goal(s) for which those funds have been raised.

Continuity assumption
The financial statements have been prepared on a going concern basis.

Unless otherwise stated, assets and liabilities are valued at the historical costs or manufacturing price. If no specific principle of valuation is stated, valuation is at the historical costs.

Liabilities are recognised at nominal value, receivables are valued at fair value and cash (equivalents) are stated at face value.

3 Statement of income and expenditure

Income

	2025	2024 (*)
Government grants	€ 559.768	€ 147.126

3 Statement of income and expenditure *(continued)*

Explanation
Provide an explanation of the statement of income and expenditure here or fill in the URL to the financial statements if an explanation is included.

Income
The recorded income contains all income attributable to the reporting year.
Revenues from services are recognised in proportion to the services rendered, based on the cost incurred in respect of the services performed up to that moment, in proportion to the estimated costs of the aggregate services to be performed. The cost price of these services is allocated to the same period.

Expenses
Expenses are determined in accordance with the accounting policies stated above and allocated to the reporting year to which they relate.

URL of the annual accounts
